ELECTRIC HEATING SALES TAX EXEMPTION FORM

Electricity sold for residential use is not taxable for the billing months of November through April when sold to metered customers who use it as their primary source of residential heat. If you qualify for the residential heating tax exemption, please complete this form and return it to the cooperative even if you have completed one before.

Please sign and return to:
Clearwater-Polk Electric Cooperative Inc.
P.O. Box 0
Bagley, MN

This is to certify that the main source of heat for my home (more than 50 percent) is furnished by permanently installed electric heating equipment (not portable) and I, therefore, am eligible for the electric heating sales tax exemption as provided by Minnesota state law. This is for the billing months of November through April only.
